

We believe that every student and grad deserves a great career!

Job Postings Done Right

We figured out how to drive highly targeted traffic at the scale desired by our employer customers, some of which are small- and medium-sized organizations but most of which are Fortune 1,000 companies, government agencies, and other employers who are hiring at scale.

College Recruiter delivers a targeted, niche audience in the right quantity – not too many and not too few. Want to hire dozens or even hundreds from one-, two-, and four-year colleges and universities anywhere globally? That's what we do. And we do it well. Really well. How well? So well that we guarantee our results.

Why Our Postings Are Effective

- **Duration:** All job postings run for 30 days unless you choose to de-activate them sooner.
- **International:** We drive well-qualified candidates at scale in any country. Well, not Syria, North Korea, or Iran. But that's to keep you and us out of trouble.
- **Reach:** 3 million students and recent grads from all one-, two-, and four-year colleges and universities including grad schools. Forget posting school-by-school. Our candidates search by metro just as you would if you were looking for a new job.
- **School Partners:** We distribute our jobs to hundreds of college career service offices, college newspaper sites, and other career sites that target students and grads.
- **Branding:** At no additional cost, we'll embed your logo and even YouTube video into your postings!

Traditional, Duration-Based Pricing

Our "all you can eat" package is best for employers who at hiring at scale yet prefer traditional, duration-based pricing such as \$X for Y postings or Z months.

No additional cost for us to scrape just the jobs you want us to run or to import your job feed. No one on your end will need to lift a finger to add, edit, or inactivate postings. Candidates go to your ATS to apply and we email detailed performance reports on the first of each month (or even daily if you wish) so you'll never need to log into our site.

- 3 months = \$5,000 (all prices gross if we're invoicing your ad agency unless we're told otherwise)
- 6 months = \$7,500 (25% discount)
- 12 months = \$12,500 (17% discount)
- 24 months = \$21,500 (14% discount)

JobsThatScale™, CPC Postings

Same features as above "All You Can Eat" except that we charge per click to your ATS or other such career page. Best for employers who want to hire dozens or even hundreds.

No long-term commitment as you can cancel with only five days' notice any time after the first 30-days.

- Minimum budgetary cap per month = USD \$2,500. If we deliver only \$100 worth of clicks, we'll invoice you just for the \$100.
- Cost per click = All postings can be the same such as USD \$0.75 or variable, job-level bidding. CPCs typically \$0.50 to \$1.00.
- Currencies = CPCs and payments in any major currency.
